

Christine Ing

Partner | Toronto

christine.ing@blakes.com

Toronto: 416-863-2667

Christine is Co-Practice Group Leader of the Firm's Information Technology group. Her practice focuses on commercial transactions involving information technology and intellectual property.

Christine has extensive experience in all aspects of information technology law, including outsourcing, systems and software acquisitions, systems and software development, licensing, various ASP and SAAS arrangements, complex services agreements and distribution/reseller agreements.

Having a strong background in intellectual property, Christine's work also includes technology-based joint ventures and strategic alliances, teaming arrangements and patent and other technology licensing in a broad range of industries, including telecommunications, financial services, insurance, pharmaceutical and defence. She also assists clients with various trade-mark and branding matters.

SELECT EXPERIENCE

Significant recent matters include:

- Advising a significant U.S.-based technology company on the distribution and licensing of proprietary software solutions in the Canadian marketplace
- Assisting a Canadian-based technology company structure and negotiate a three-party billing systems implementation and support agreement
- Assisting a medical device company structure and negotiate a software-based medical system supply and service agreement with a group of hospitals
- Acting for a leading Canadian pharmaceutical company on the structuring, preparation and negotiation of a long-term collaboration agreement for the development and commercialization of a drug for the treatment of certain neurological conditions, including the securing of key patent and technology licences from a large U.S.-based biotech company
- Acting for a leading disaster-recovery provider in an outsourcing deal pursuant to which the existing and new nationwide managed hosting business of a Canadian telecommunications company would be fulfilled by such provider
